Education

University of Maryland, College Park

B.S. in Computer Science and Mathematics

Expected Graduation: May 2027

College Park, MD

- Awards: UMD President's Scholarship (\$50,000)
- Coursework: Data Structures, Algorithms, Networks, Computational Methods, Linear Algebra, Data Science

Work Experience

GEI Consultants

Jun 2025 – Aug 2025

Web Developer Intern

Sacramento, CA

- **PM Tools** – Project Management Web Application
 - * Led full-stack development of authentication, admin, and user management features using React, TypeScript, Java/Spring Boot, and Oracle Database, improving platform security and reliability
 - * Built a full-stack dashboard for real-time river map generation and data querying using a Spring Boot REST API and a React frontend with Plotly and Leaflet, cutting manual data filtering time by over 50%
 - * Engineered backend services in Java/Spring Boot to enable editing and deletion of 100+ project tasks stored in Oracle Database
- **HRL TIMS** – River Data Management Web Application
 - * Led frontend development of the login page using HTML, CSS, JSP, and JavaScript, enhancing interface consistency and usability for ~10 California DWR staff members
 - * Engineered a Spring Boot REST API to aggregate data from Oracle Database and the California Data Exchange Center into styled Excel workbooks, enabling on-demand retrieval of 200+ live river metrics
 - * Developed and optimized a full-stack data dashboard with a Java backend and frontend Plotly charts styled with jQuery and Bootstrap, reducing river data load times from ~1 second to milliseconds

Projects

Stock Price Predictor | [Source Code](#)

Jul 2025 – Present

- Designed a Python-based data ingestion, preprocessing, and visualization pipeline for historical market data
- Trained an LSTM model with TensorFlow/Keras to forecast stock prices using EMA-based technical indicators

Hong Wang Art | [Website](#) | [Source Code](#)

Jan 2025 – Present

- Developed a frontend web application using HTML, CSS, and JavaScript to professionally showcase artwork
- Building a second version with React and TypeScript to support user login and artwork management features

Crypto Paper Trading Simulator | [Demo](#)

Apr 2025 – May 2025

- Built a full-stack web application with an HTML, CSS, and JavaScript frontend and a Node.js/Express backend, implementing CRUD operations on a MongoDB cluster to simulate cryptocurrency trades

Leadership

Finance Associate, TeenTechSF GLOBAL

Feb 2023 – Jul 2023

- Managed live virtual tech workshops on Zoom, ensuring smooth delivery and high engagement for 100+ participants
- Designed digital advertising campaigns, driving increased workshop attendance and expanding online reach

Math Tutor, Independent & BRI Youth Group

Feb 2020 – Sep 2022

- Held weekly tutoring sessions for middle school students in algebra and AMC competition-level math, simplifying advanced concepts and fostering both stronger problem-solving skills and study habits

Technical Skills

Languages: TypeScript, JavaScript, Java, Python, C, SQL, Rust, OCaml, HTML, CSS

Developer Tools: Oracle Database, MongoDB, Git, Docker, SQL Developer

Libraries/Frameworks: React, Spring Boot, Node.js, Express, Vue, TensorFlow, Scikit-Learn, Pandas, NumPy

Hobbies/Interests: Financial Markets, Drawing, Table Tennis, Psychology, NBA
